

1) Illustri il procedimento di V.I.A.

2) THE AMAZON RAINFOREST- SOURCE OF CO<sub>2</sub> EMISSIONS: Environmental scientists have revealed that parts of the Amazon rainforest are emitting more carbon dioxide than they are absorbing. The rainforest was once called "the lungs of the world" because it absorbed CO<sub>2</sub> up and converted it into oxygen. It has now become a source of carbon dioxide: it is producing over a billion tons of CO<sub>2</sub> a year.

3) Cos'è nei siti web Impressum o còlophon

1) Illustri le attività che devono essere svolte per dare l'avvio ai lavori di un'opera pubblica.

2) THE COP26 CLIMATE CHANGE CONFERENCE: Many countries at the COP26 climate change conference made promises to help Earth. They signed agreements to end deforestation and cut methane emission levels by 30 % by 2030. CEOs of global companies were also at the COP26.

Jeff Bezos said he decided to give more money to protect the planet after going into space in July.

3) Cos'è una PEC

1) Illustri i processi e i contenuti legati alla pianificazione delle infrastrutture di trasporto.

2) TIMBER SHORTAGE: A global timber (=wood) shortage is causing problems for the housing industry. It has caused a substantial increase in the price of new houses. A major reason for the timber shortage is climate change. In addition, an increase in wildfires is destroying forests. The warmer weather has also increased the number of pests that damage or kill trees.

3) Gestione delle password. In che modo create passwords sicure ed efficaci?

1) Illustri quali sono le principali tipologie di opere finalizzate alla difesa del territorio

2) EXTREME HOT WEATHER: Climate scientists have warned that many parts of the world will experience more extreme heat. Experts from the EU's Earth Observation Programme analysed temperatures from satellites, weather stations and other databases.

The scientists reported that their statistics indicated a risk of an escalation in extreme temperatures with more deaths related to droughts and heat.

3) Indicare l'unità di misura per la velocità del processore e descrivere la funzionalità che lo stesso svolge nel computer

- 1) Ruoli e competenze del collaudatore delle strutture in zona sismica.
- 2) ECO-ANXIETY: More and more children are suffering from "eco-anxiety". This is a condition that causes people to worry a lot about the future of Earth and the life on it.  
  
People are worried about climate change, pollution and the loss of biodiversity. This has led education experts to request more teaching in schools about climate change, wildlife and the environment.

- 3) Quali sono i file hanno come estensione ".exe".

- 1) Illustri il concetto di invarianza idraulica.
- 2) BIODEGRADABLE PLASTIC: Plastic has polluted the world for decades. Environmentalists told us to cut the amount we use or switch to biodegradable alternatives.  
  
Scientists have created a biodegradable plastic which breaks down using just heat and water - like any organic waste – so that the billions of plastic bags and other plastic materials that we throw away each day could be "compostable".

- 3) Quale funzione svolge il monitor e quale potrebbe essere la parola che lo traduce in italiano.

- 1) Illustri i processi e i contenuti legati al Piano di tutela delle acque
- 2) CLEAN ENERGY: Denmark has an idea for clean energy - an artificial island 80km off its western coast.  
  
This project should end Denmark's dependence on fossil fuels within three decades.  
  
Denmark is Europe's largest oil-producing country.  
  
A professor of energy called the project, "a starting-point in the green transition which will help facilitate the reduction of Danish CO2 emissions".

- 3) Descrivere cosa sono login, logout, backup, bootstrap e shutdown.

- 1) Ruoli e competenze del coordinatore della sicurezza in fase di esecuzione di un'opera pubblica.
- 2) DAMAGED RIVERS: Researchers from Toulouse university examined data on over 2,500 rivers around the world and they discovered that, in the last 200 years, 86% of the world's rivers have been damaged by human activity.

Biodiversity has been seriously damaged by pollution and climate change, by dams and farming, by overfishing and by the introduction of new species of fish into rivers.

3) La memoria di un computer si misura in Bit, Byte, Kb, Mb, Gb, Tb, ... Spiegare cosa misura e come le grandezze sono relazionate.

1) Lo strumento della Conferenza dei Servizi: meccanismo, finalità, ruoli.

2) ECOCIDE: Ecocide is the destruction of the world's ecosystems. There could be a new international law to make ecocide a crime, like crimes against humanity, war crimes and genocide.

Governments and multi-national corporations could be considered responsible for their environmental damage.

Several European countries and island nations at risk from rising sea levels support the idea.

3) Il tasto AltGr della tastiera consente di ...

1) Quali sono gli elementi del sistema informativo territoriale e il loro uso nella pianificazione territoriale.

2) CLEAN AIR: Scientists found what they think is the cleanest air on Earth. Researchers conducted research on the purity of the air above Antarctica. An area between the south of Australia and Antarctica was "unaltered" by human activity. The analysis of the air in the clouds showed it was free from air pollutants from human activity, or dust from other continents.

3) Che differenza c'è tra un terminale e un PC ?

1) Procedure sotto soglia e sopra soglia nell'ambito degli appalti di opere pubbliche.

2) VANISHING BEACHES: Scientists from the European Commission predict that rising sea levels could put half the world's beaches under water by the end of the century.

They blame climate change. There are two ways we can help to save the beaches:

one is to reduce emissions, the other is to manage our coastline in a more sustainable way.

3) Cosa si intende per codice ASCII ?

1) Illustri quali sono gli elementi di progettazione stradale con particolare riguardo agli aspetti della sicurezza stradale.

2) GREEN SHIPS: Michelin, the French tyre maker, is helping ships to be environmentally friendly.

Experts say the shipping industry produces around 940 million tons of CO<sub>2</sub> annually, and that it is responsible for about 2.5 % of the world's greenhouse gasses. Michelin's engineers say their revolutionary new sails could reduce the amount of CO<sub>2</sub> produced by the shipping industry by 20 %.

3) Come scrivere in word i caratteri # [ {

1) L'istituto della sospensione dei lavori: casistica, ruoli e limiti previsti dalla legge.

2) HALF OF LIFE ON EARTH GONE SINCE HUMANS ARRIVED: Humans are just 0.01% of all life on Earth but have destroyed 83% of all wild mammals and half of our plant life. There are 7.6 billion people on Earth. We share the same level of biomass as termites. We have managed to destroy many living species. Humans have also changed the proportion of livestock to wild animals.

3) Spiegare cos'è Microsoft Access.

1) Illustri il concetto di invarianza idraulica.

2) BIODEGRADABLE PLASTIC: Plastic has polluted the world for decades. Environmentalists told us to cut the amount we use or switch to biodegradable alternatives. Scientists have created a biodegradable plastic which breaks down using just heat and water - like any organic waste – so that the billions of plastic bags and other plastic materials that we throw away each day could be "compostable".

3) Quale funzione svolge il monitor e quale potrebbe essere la parola che lo traduce in italiano.

1) Illustri il procedimento di V.A.S.

2) CHANGES IN FRESHWATER LOCATIONS: NASA studied freshwater resources for 14 years and they found that as humans move and eat more, they are modifying freshwater resources across Earth.

Many equatorial regions are drying, while tropical areas are getting wetter. One reason is too much pumping of groundwater for farming and if this continues, many cities could struggle to find water.

3) Funzioni di ricerca di un valore in un intervallo di celle. Come posso trovare l'esatta corrispondenza nella prima colonna e restituire il risultato a pari riga in terza Colonna.

1) Illustri i processi e i contenuti legati al Piano di assetto idrogeologico (PAI).

2) CARBON FOOTPRINT OF GLOBAL TOURISM: Climate scientists from the University of Sydney say tourism causes over 8% of greenhouse gasses. They also say that this percentage will continue to increase because the tourism industry is growing. Their study looked at the carbon footprint of many different areas of tourism. It studied the CO2 emissions from transport, events, hotels, restaurants and shopping.

3) In Excel cos'è il riferimento relativo e assoluto. Spiegarne la sintassi e l'uso

1) Ruoli e competenze del Direttore dei Lavori

2) SINGLE-USE PLASTICS: Single-use plastics are a big source of pollution. China plans to reduce single-use plastics by 2025. Non-biodegradable plastic bags will be banned in major cities and food delivery and takeaway services will stop using single-use plastic materials. The United Nations said all countries need similar policies: we must rethink how we manufacture, use and manage plastics.

3) In Microsoft Office descrivere una data e indicare la prima e l'ultima data del calendario.

1) Ruoli e competenze del collaudatore tecnico – amministrativo.

2) HOUSEHOLD ITEMS and POLLUTION: Scientists say a big cause of pollution is in our home. Everyday items such as toothpaste, deodorant and perfume have volatile compounds that create pollution. Dr Brian McDonald, an air-pollution researcher, did research on what creates pollution in our homes. He found that household items cause as much pollution as cars and trucks.

3) Cos'è la firma digitale e a quale scopo viene utilizzata.

1) Illustri le principali azioni di pianificazione in ordine alla prevenzione dei dissesti sul territorio.

2) LIGHT POLLUTION: Bright light from cities around the world is reducing the darkness of night.

A new study says artificial light at night increased in most countries by 2.2% a year. Years ago, when night-time fell,

the dark arrived but between 2012 and 2016 night-time light decreased in 16 countries. This is affecting our environment, our safety, energy consumption and health.

3) Cos'è un doodle.

1) Ruoli e competenze del R.U.P. nel processo di realizzazione di un'opera pubblica.

2) INSECTS ARE DISAPPEARING: Global warming isn't the only serious threat. Another major threat is the falling numbers of insects and the extinction of many species. Half of all insects worldwide have been declining since the 1970s and the number of insects is decreasing by 2.5 % every year. Many species of butterflies, bees and other insects are now extinct because of pesticides.

3) Nella gestione di quali informazioni può essere di aiuto Outlook?

1) Illustri le diverse fasi della progettazione di un'opera pubblica.

2) POLLUTION IS THE WORLD'S BIGGEST KILLER: One in six deaths worldwide is caused by pollution. The study was published in the medical journal 'The Lancet'. Most of these deaths were from non-infectious diseases caused by pollution: heart disease, lung cancer and stroke. About 92% of these deaths were in low-income nations, especially countries where there is a lot of economic development, such as India and China.

3) Convalida dati: descrivere la sua funzionalità

1) Illustri la pianificazione introdotta dalla Legge regionale 8/2018 sulla mobilità ciclistica.

2) ARCTIC CIRCLE SEES HIGHEST-EVER TEMPERATURES: Meteorologists have found another sign of global warming. There were record temperatures in the Arctic Circle. The temperature reached 38° Celsius in a town in Siberia. The heatwave is 18 degrees higher than usual. Climatologists say the Arctic Circle is warming at twice the rate of the global average and higher temperatures in Siberia could accelerate global warming.

3) Cosa si intende con il termine "sistema operativo".

1) Illustri quali sono le principali tipologie di opere d'intervento sui corsi d'acqua.

2) EROSION: The shorelines of highly populated areas are threatened by erosion from increasing sea levels.

A substantial proportion of the world's sandy coastline is already eroding. Areas at risk of disappearing forever by the end of the century include well-known beaches in Australia's Surfers' Paradise, the islands of Hawaii, Brazil's Copacabana Beach, and the Costa del Sol in Spain.

3) Nella posta elettronica si utilizza SMTP.

1) I diversi metodi di scelta del contraente nell'ambito dei lavori pubblici.

2) JEFF BEZOS VS CLIMATE CHANGE: Jeff Bezos, the founder of Amazon, made a speech at the COP26 and promised to give \$2 billion to help nature to restore landscapes to their more natural state. He also wants to transform food systems to make food production more sustainable. Mr Bezos set up the Bezos Earth Fund in 2020, a \$10-billion project to help fight climate change.

3) In PowerPoint on i comandi F5 e Shift+F5 cosa faccio?

1) Le varianti in corso d'opera: casistica, ruoli e limiti previsti dalla legge.

2) AIR TRAVEL EMISSIONS: A team of Australian researchers studied the impact on the environment of over one million businesses involved in tourism. Domestic travel caused more CO2 emissions than international travel and air travel caused the most emissions. The countries with the biggest tourism carbon footprints were the USA, China, India and Germany. Their carbon emissions will increase as more people travel.

3) I tipi di oggetto in access sono tabelle, query, maschere e report dove sono i dati e quale è l'operazione svolta da quel tipo di oggetto.

1) Il contenzioso nell'esecuzione delle opere pubbliche: origini e possibili soluzioni.

2) ARTIFICIAL LIGHT THREATS OUR NATURAL ENVIRONMENT: A scientist called artificial light a pollutant that threatens nocturnal animals and influences plants, microorganisms, bacteria, mammals, and humans.

It is reshaping entire social ecological systems. Environmentalists thought LED lights could help and cities started using more those types of lights as they are cheaper but they are increasing light pollution and reducing night-time light.

3) In Excel, quali sono gli operatori aritmetici fondamentali in excel e come si usano.

1) Che cos'è un sistema informativo territoriale: finalità, struttura, aggiornamento.

2) PRESSURE ON THE SUSTAINABILITY OF FORESTS: Climate change is putting pressure on the sustainability of forests. Many forests have been completely burnt and the warmer weather has increased the number of pests that damage trees and inhibit tree growth. Sweden is one of the major suppliers of wood and it has recorded its lowest wood reserves for 20 years.

3) Correzione automatica e caratteri speciali dove sono impostati e a cosa servono.

1) Titolo edilizio per l'esecuzione di opere pubbliche: casistiche e limiti previsti dalla legge.

2) MICROPLASTICS: Scientists say there are more than five trillion pieces of microplastic in our oceans. More and more are being added every day. Professor Richard Thompson, a marine biologist at Exeter University, said: "Hundreds of marine organisms encounter plastic at the sea surface or in the water...and many of those encounters are harmful if not fatal."

3) Descrivere interruzione di sezione e interruzione di pagina e per cosa si usano.

1) Pianificazione delle infrastrutture stradali: criteri ed elementi di sicurezza stradale.

2) COAL DEPENDENCE: The United Nations Secretary-General has told world leaders to end their dependence on coal because fossil fuel is a "major threat" to climate change. Unless we are able to defeat climate change, the research has forecasted that 300 million people in the world could be flooded by sea water in 2050. We need to stop subsidies for fossil fuels.

3) Che cos'è una scheda di rete e cosa consente di fare.

1) Illustri quali sono gli elementi di progettazione stradale con particolare riguardo agli aspetti della sicurezza stradale.

2) GREEN SHIPS: Michelin, the French tyre maker, is helping ships to be environmentally friendly.

Experts say the shipping industry produces around 940 million tons of CO<sub>2</sub> annually, and that it is responsible for

about 2.5 % of the world's greenhouse gasses. Michelin's engineers say their revolutionary new sails could reduce the amount of CO<sub>2</sub> produced by the shipping industry by 20 %.

3) Come scrivere in word i caratteri # [ {

1) Illustri i processi e i contenuti legati alla pianificazione del paesaggio.

2) CLIMATE CRISIS AND THE FUTURE OF GLOBAL SPORT: Fires, floods, heatwaves and rising sea levels will cause many problems. A report said almost all sports could be impacted by the climate crisis over the next three decades but the weather has already damaged major sport events. Fires created dangerous playing conditions at the Australian Tennis Open and torrential typhoon rain interrupted the Rugby World Cup in Japan.

3) Word descrivere la caratteristica "carattere" tipo stile dimensione e effetti.

1) Ruoli e competenze del Responsabile dei Lavori nell'ambito di realizzazione di un'opera pubblica.

2) GENETICALLY-MODIFIED MOSQUITOES: Scientists in Florida will release 750 million genetically-modified mosquitoes to reduce the number of existing mosquitoes with diseases like Zika virus, yellow fever, etc. Environmental groups think that the project might damage local ecosystems, a process that might never be inverted. They say the experiment could even create a new super-species of mosquito that is resistant to insecticides.

3) Cos'è un file .docx .docm .dotx e .dotm.

1) Diminuzione del consumo di suolo: effetti sulla pianificazione delle infrastrutture.

2) MUSIC TOURS ARE NOT ENVIRONMENTALLY FRIENDLY: Coldplay announced they will not go on tour to promote their new album because of the environmental damage it might cause. The band is looking for ways to make music tours more carbon neutral and more environmentally friendly. Lead singer Chris Martin said the band would like their future tours to "have a positive impact" on the environment.

3) Descrivere quali comandi Windows vengono eseguiti dalla combinazione di tasti Ctrl+C, Ctrl+V, Ctrl+X, Ctrl+Z, Ctrl+Y.

- 1) Procedure di approvazione di un piano regionale.
- 2) ZERO-CARBON FUELS: For the first time since the Industrial Revolution, more of the UK's energy comes from zero-carbon fuels than fossil fuels. In 2019, fossil fuels produced less than half of the UK's electricity. A decade ago, three quarters came from fossil fuels. In the future the UK will get more and more power from wind, solar, nuclear and hydro sources.
- 3) Descrivere le operazioni base di un puntatore dello schermo (mouse, touch pad, ...).

- 1) Ruoli e competenze del coordinatore della sicurezza in fase di progettazione.
- 2) WORLD HERITAGE SITES AT RISK: The World Wildlife Fund is worried about the future of the world's natural World Heritage sites. Half the sites are at risk from climate change and from damaging activities, such as mining, drilling for oil and illegal deforestation. The UNESCO World Heritage Centre said: "World Heritage is humankind's common heritage, and we are all responsible for its conservation."
- 3) Descrivere come è organizzata una presentazione PowerPoint, ovvero Layout della diapositiva.

- 1) Il corso d'acqua: dai dati di un S.I.T. a oggetto della pianificazione regionale.
- 2) DIMMING THE SUN TO LIMIT GLOBAL WARMING: Researchers have a new idea to save Earth from global warming. Geo-engineers believe that spraying "sun-dimming" chemicals high above the Earth could slow down global warming. The researchers said this barrier against sunlight is still in the planning stages. Some scientists think the idea is unrealistic and it might even increase droughts and extreme weather.
- 3) Descrivere cos'è un virus, un worm, un trojan horse.

- 1) La strada: dai dati all'interno di un S.I.T. a oggetto della pianificazione regionale.
- 2) ECOTOURISM A DANGER TO WILDLIFE: Ecotourism is booming and tour operators say this helps nature. However, a new report says this ecotourism may damage nature more than it can help it. Researchers believe tourists stop animals behaving naturally in their natural habitat. Recently in Costa Rica, turtles had problems laying their eggs because of the many tourists on the beach watching them.

- 3) La posta elettronica può essere utilizzata mediante webmail oppure attraverso un client di posta. Descrivere il funzionamento dei due strumenti software.
  
- 1) Cambiamenti climatici: i dati sulle precipitazioni meteoriche ed i loro effetti in termini di progettazione e pianificazione.
- 2) MAKING SPORTS INDUSTRY CARBON-NEUTRAL: Carbon emissions from global sport are equivalent to those of a medium-sized country. A researcher asked the sports industry to become carbon-neutral. Sport industry should be more proactive because it offers some of society's most influential role models. If sport can change the way it operates to stop the climate emergency, others will follow.
- 3) Descrivere i metodi di invio ai destinatari di posta elettronica e il loro significato.
  
- 1) Autorizzazioni e relativi procedimenti amministrativi per la realizzazione di un'opera di difesa dal rischio idrogeologico.
- 2) EARTH HAS LOST HALF ITS TREES BECAUSE OF HUMANS: Thousands of years ago, the earth had around six trillion trees. Human activity has cut in half the number of trees on our planet. A good example of this is the fact that in the past Europe used to be one giant forest; now much of it is farmland, cities and towns. We are destroying around 15 billion more trees every year.
- 3) Cosa significano gli acronimi ARPANET, TCP, IP, FTP, HTTP, HTTPS.
  
- 1) Tutela delle acque e sicurezza idrogeologica come obiettivi della pianificazione regionale.
- 2) SCIENTISTS CONVERT CO<sub>2</sub> EMISSIONS INTO STONE: Scientists have found a simple way to deal with carbon dioxide emissions. Researchers in Iceland pumped 220 tons of CO<sub>2</sub> underground into volcanic rock. It reacted with the rock and was converted into a solid substance. The scientists hope their research will help to solve the problem of CO<sub>2</sub> emissions entering the atmosphere and warming the planet.
- 3) Cosa si intende con il termine Netiquette, citando anche alcune regole di esempi.

- 1) La "valutazione ambientale" nell'ambito delle procedure amministrative.
- 2) SOME AIRLINES CREATE EXTRA CO<sub>2</sub> BY FUEL-TANKERING: Fuel-tankering is when airplanes are filled with extra fuel to go somewhere and come back. The money saved for each flight is very small, but there is a big cost to the environment. A flight from London to Italy puts an extra 600kg of CO<sub>2</sub> into the air but the airline saves just \$50.
- 3) In Word stampa unione per lettere e etichette: evidenziarne la differenza.

- 1) Parcheggio scambiatore (opera pubblica da progettare e realizzare, elemento della pianificazione regionale).
- 2) GLOBAL WARMING PUTS THE ARCTIC AT RISK: The Arctic ice is melting at a dangerous speed because of global warming. The volume of sea ice is the lowest it has ever been. Less sea ice means the Earth cannot reflect the sun's rays and cool itself. Warmer seas melt more ice. The loss of sea ice in one year increases the loss in the next year.
- 3) Nella posta elettronica si utilizza IMAP spiegare di cosa si tratta.

- 1) La L. 241/90 – principi e istituti generali.
- 2) TRAFFIC POLLUTION DAMAGES CHILDREN'S LUNGS: Road pollution is a serious danger to children's health. That is the conclusion of a long and large study into the effects of traffic fumes on child development. American researchers studied 3600 children living within 500 metres of busy roads. Most of the children had weakened lungs and this meant they could have breathing problems for the rest of their lives.
- 3) Outlook mette a disposizione la possibilità di firmare un documento indicare i modi possibili.

- 1) Progettazione di un tratto stradale in zona di instabilità geologica.
- 2) LOSS OF NATURE WILL DAMAGE ECONOMIES: We are causing so much damage to our planet that it will soon affect the global economy. Many important ecosystems are in danger. Examples of these are the deaths of coral reefs, the destruction of huge areas of forest, the pollution of rivers. We continue to lose biodiversity at a rate up to 1,000 times higher than the historical rate.
- 3) Cos'è la richiesta della ricevuta di consegna in Outlook per un normale account di posta a differenza della PEC.

1) Disciplina delle attività edilizie della pubblica amministrazione: accertamento di conformità e comunicazione di conformità.

2) EUROPE'S FLOODS: Angela Merkel is worried about climate change after the floods in Europe. Many rivers swelled and overflowed because of torrential rain. Water destroyed houses, roads and bridges across Germany, Belgium and other countries. She visited the damaged areas in Germany and listened to local residents. She said: "It's shocking. We have to be faster in the fight against climate change."

3) In Word come creo un indice e da quale caratteristica del paragrafo viene determinate.

1) Ruoli e competenze del coordinatore della sicurezza in fase di progettazione di un'opera pubblica.

2) WIND TURBINES: The collision of birds is one of the main environmental problems related to wind energy development. Norwegian scientists conducted research on how to reduce the death percentage of birds caused by wind-turbine blades. They suggested painting one blade black to help birds see the rotating blades. In over four years that solution has cut bird deaths by up to 70%.

3) In una diapositiva posso inserire oggetti SmartArt, descrivere cosa sono.

1) Istituto dell'accordo bonario per la risoluzione di controversie in un appalto di lavori: procedimento, ruoli e limiti.

2) COCA-COLA TESTS A PAPER BOTTLE: Coca-Cola is one of the worst plastic polluters. In one year, it uses around three million tons of not recycled plastic packaging. Coca-Cola hopes to completely stop using plastic for its bottles. "Our vision is to create a paper bottle that can be recycled like any other type of paper. A paper bottle opens up a whole new world of packaging possibilities."

3) Nell'intervallo di celle A1:B2 sono scritti i valori mostrati. Quale formula si scrive nella cella C1 che copiata e poi incollata nella cella C2 fornisce il risultato mostrato:

	A	B	C
1	10	3	30
2	13	7	39
3			

- 1) Autorizzazioni e procedimenti in campo ambientale di competenza della Regione.
- 2) THAI PARKS SEND LITTER BACK TO TOURISTS: Thailand decided to react to the increasing number of plastic bottles and paper thrown away in national parks. People who leave litter in Thai national parks may get a surprise: their litter may be returned to them with a letter. "We collected your garbage...and sent it to your home. This should be a lesson...to never again throw away waste."
- 3) Word stile, dire cos'è e approfondirne l'uso.

- 1) Principali contenuti e finalità del progetto definitivo di un'opera pubblica.
- 2) ECOSYSTEMS ARE IN DANGER: If we continue to pollute the environment, huge numbers of species will be extinct. Corals may disappear, with a huge impact on marine life. Many fish species will also disappear and this will get worse with the increasing pollution of rivers. Scientists are worried that governments will not do enough to reduce the damage to the point of no return.
- 3) Filigrana e bordo pagina per cosa si usano.

- 1) Ufficio di direzione lavori: costituzione ruoli e competenze.
- 2) VEGAN FASHION: There has been a dramatic increase in the popularity of veganism around the world in the past decade. Refusing meat and other food from animals is the biggest change vegans make to their lives. Vegans are now thinking about fashion. There is a big increase in the sales of vegan clothing, footwear accessories, and products that are free from animal products.
- 3) Descrivere i file Access con le diverse estensioni di access.

- 1) Piano operativo per la sicurezza, Piano di sicurezza e coordinamento e fascicolo dell'opera: competenze, contenuti minimi e responsabilità.
- 2) RECORD TEMPERATURES: An atmosphere scientist said he is very worried about rising temperatures. Melting permafrost in Siberia is increasing the levels of carbon dioxide and methane into the atmosphere. He said that every

year temperature records are broken around the world and we will see more of this in the near future. This is a warning message from the Earth itself.

3) Cosa si intende con i termini freeware e shareware.

1) Contabilità dei lavori pubblici: documenti e atti contabili, ruoli e responsabilità.

2) ETHIOPIA PLANTS 350 MILLION TREES IN 12 HOURS: Ethiopia broke the world record for the number of trees planted in a day. On 29th July 2019 Ethiopians planted more than 350 million trees in just 12 hours. Ethiopia is trying to reverse the cutting down of its forests. Planting billions of trees is the cheapest and most effective way to absorb carbon dioxide and react to global warming.

3) Descrivere il significato degli acronimi LAN, WAN, WWW.

1) Appalto di progettazione ed esecuzione delle opere pubbliche (appalto integrato): contenuti, vantaggi, svantaggi ambito di applicazione.

2) THE EFFECTS OF PLASTIC POLLUTION ON SEABIRDS: The BBC made a documentary about the terrible impact plastic is having on seabirds near Australia. They filmed dead birds with stomachs full of plastic, starved to death because there was no room in their stomachs for food. Marine biologists captured hundreds of baby birds and physically removed plastic from their stomachs to give them a chance of survival.

3) Nei motori di ricerca come escludere dalla ricerca i testi che contengono una determinata parola chiave.

1) Principali contenuti e finalità del progetto definitivo di un'opera pubblica.

2) POPE FRANCIS AND THE IMPORTANCE OF GREENER ENERGY: According to Pope Francis, the energy question has become one of the principal challenges facing the international community. The way we respond to this challenge will determine our global quality of life. Civilization requires energy, but energy use must not destroy civilization. Clean energy is a duty that we owe to future generations.

3) L'acronimo URL ha il significato di.

- 1) Principali contenuti e finalità del progetto di fattibilità tecnica ed economica di un'opera pubblica.
- 2) THE GLOBAL SEED VAULT (=deposit): The Global Seed Vault was created to protect the world's food supply. It is buried in an icy mountain in the Arctic Circle and it contains back-ups of seeds from all over the world. Climate change and droughts are menacing many species of plants. Protecting the seeds will allow scientists to develop nutritious and climate-resilient crops for future generations.
- 3) Descrivere la differenza tra il concetto di etichetta e di cartella nella posta elettronica.

- 1) Il collaudo e il certificato di regolare esecuzione: contenuti e differenze.
- 2) NEW PLANTS CAN PRODUCE LIGHT IN THE DARK: American scientists have created plants that glow in the dark, hoping to produce plants that can replace electric lights. The researchers got the idea for their lighting plants from fireflies. They looked at the substance in fireflies that makes them glow. They created nanoparticles that contain the substance. They then put the nanoparticles into plant leaves to make them glow.
- 3) La sintassi di un indirizzo di posta elettronica è caratterizzata da 3 campi attribuire il nome e il significato a ciascuno di questi. Per esempio [nome1][simbolo][nome2].

- 1) Infrastrutture stradali: messa in sicurezza con riqualificazione in sede.
- 2) VIDEO OF STARVING POLAR BEAR GOES VIRAL: A polar bear is looking for food as it slowly walks across land with no snow. The bear is too weak to stand up and its condition is a clear sign of the terrible impact of climate change. Polar bears are starving. As temperatures rise and sea ice melts, they lose access to seals, the main part of their diets.
- 3) Cos'è in una presentazione PowerPoint il layout e dove si applica.

- 1) Verifica e validazione dei progetti di opere pubbliche: soggetti coinvolti, scopo e contenuti.
- 2) THE EFFECTS OF CLIMATE CHANGE ON FISH POPULATIONS: Climate change is increasing water temperature in rivers, lakes and seas. Scarcity of food and oxygen is a danger to reproduction and some fish could mass migrate to cooler areas. 40% of people in the world depend on fish for their main source of protein. If temperatures rise even by one or two degrees, some species will become extinct.

3) Descrivere cosa fanno in Excel i comandi eseguiti da tastiera mediante i tasti Ctrl+1, F2, F4 e F9.

1) Criteri per l'aggiornamento del PRITMML.

2) THE CITY OF TREES: The "City of Trees" is a project to plant three million trees in Manchester over the next 20 years. The trees will reduce air and noise pollution and reconnect people with the natural world, providing health benefits and reducing stress. They can also help climate change both in terms of reducing the urban heat island effect and flooding.

3) Indicare quale sia un allegato oppure cos'altro tra questi: un documento PDF, un documento Word, un elemento del calendario e un URL.

1) Infrastrutture civili nelle zone sismiche: procedure e criteri per la progettazione.

2) BOTANIC GARDENS 'BEST HOPE' FOR SAVING PLANTS: Currently about one-fifth of plant diversity is in danger. Botanic gardens contain about 100,000 species, including a third of all the world's endangered plants and many of the rarest plants. The wide range of plants grown, managed and conserved in botanic gardens could be a helpful way of protecting about 40% of endangered species of plants.

3) Come ordinare automaticamente ogni email che viene ricevuta a seconda di chi la invia.

1) Sistema della pianificazione territoriale regionale: quali sono i piani e in che rapporto sono fra loro.

2) GLOBAL WARMING IS CAUSED BY HUMAN ACTIVITY: Many world leaders have closed their ears to this fact so they don't have to limit their economic activity or introduce expensive pollution controls. In the decades immediately ahead, the changes will be felt in regional water supplies, including areas affected by accelerated glacier melting, putting millions of people at risk without adequate summertime water.

3) Come impostare il carattere preimpostato quando apro un nuovo file.

1) Porzione del territorio "a pericolosità idraulica".

2) THE GROWING PROBLEM OF PLASTIC: Plastic is causing a lot of damage to our environment. It is polluting rivers and oceans and harming and killing wildlife. Plastic is a growing problem because it takes hundreds of years to break down. Many companies around the world are trying to replace plastic with more environmental-friendly and recyclable materials which come from renewable sources.

3) Descrivere l'uso combinato delle funzioni di excel somma e sottotale.

1) Ruoli e competenze del coordinatore della sicurezza in fase di progettazione di un'opera pubblica.

2) WIND TURBINES: the collision of birds is one of the main environmental problems related to wind energy development. Norwegian scientists conducted research on how to reduce the death percentage of birds caused by wind-turbine blades. They suggested painting one blade black to help birds see the rotating blades. In over four years that solution has cut bird deaths by up to 70%.

3) In una diapositiva posso inserire oggetti SmartArt, descrivere cosa sono.

1) La pianificazione regionale in campo ambientale.

2) PROTECTING ENDANGERED PLANTS: Most of the world's plants are in danger because of humans cutting down forests for farming and cities, and because of pests and climate change. If we do not protect endangered plants and conserve our plant diversity, in the future humanity will struggle to solve the global challenges of food, fuel security and climate change.

3) Con quale strumento di word si modificano i rientri di un document?
